PROFILE

As a self-taught MERN developer, I possess understanding of MongoDB, Express.js, React.js, and Node.js, enabling me to build dynamic and responsive web applications.

SKILLS

- MongoDB
- Express.js
- React.js
- Node.js
- JavaScript
- RESTful API Integration
- Git
- Problem-solving (C & C++)
- HTML/CSS

EXPERIENCE

BOOKING APP

Self-project

- Created using MERN stack along with admin panel.
- User registration with password hashing using bcrypt js.
- User can search nearby hotels and book available rooms.
- Contains featured hotels, categorized rooms according to price.

LINKED IN CLONE

self project

- Full stack linked in clone using react and firebase.
- Create new account using google authentication and upload posts.
- Post can be text, image or youtube link.

MOVIE APP

self project

- Simple movie searching web application using omdb api.
- Fetch data of particular movie and displays its details.
- Also has error handling page.
